Melissa is a Project Specialist at Organizational Architecture and provides external client support as well as internal administrative support. Her experience includes working as a consultant building a marketing database.

Other experiences prior to Organizational Architecture include website development and social media accounts management for a real estate company.

Melissa graduated with a Bachelor of Arts Degree in English and a Bachelor of Science Degree in Mathematics and Minor in Actuarial Science from Walsh University in April 2017.

While attending Walsh, Melissa completed an independent and original research project evaluating the effectiveness of online social media sites for expanding personal networks.
